Community Medical Center's mission is simple: Making Communities Healthier®. By creating places where people choose to come for healthcare, physicians want to practice and employees want to work, we are providing quality care close to home and investing in our region's overall well-being. Your support allows us to continue to enhance the many ways we serve and care for Missoula and the surrounding region today and for generations to come. Thank you.

— Dean French, MD, CEO

In 2019, we...

- Invited the best possible providers into our community and supporting them is essential to ensuring access to high quality care. This year, we added providers in colorectal surgery, obstetrics and gynecology, heart care, pediatrics, urology, plastic surgery, pain and spine, and more.

- By continually investing in our facilities, we’re helping to ensure that we continue to meet our community’s healthcare needs. This year, we invested in our new pain and spine center, a new hybrid OR for electrophysiology and interventional radiology, a new first responders’ lounge and more.

- We strive to create an environment where talent is recognized, job satisfaction is valued and our employees can effectively use their skills to provide high quality care and service.

- Delivering care to all of our neighbors, regardless of their ability to pay, is foundational to our mission and our commitment to our community.

- We are proud to be a leader in our region, and our dedication to ensuring fiscal responsibility extends both to our hospital and to our community.

- Distributed a payroll of $82,157,693 to more than 1,000 employees

- Made more than $5 million in capital improvements

- Donated more than $7 million in services to those in need

- Paid $5,042,863 in taxes

- Added 19 providers
